| Wednesday, Jan 16, 2019 - 4pm | Real-time fMRI neurofeedback for treating and studying mental illness | Michelle Hampson, PhD  
Associate Professor of Radiology and Biomedical Imaging and of Psychiatry and in the Child Study Center; Director of real-time fMRI  
Yale University | SOM-5150 downtown | Rouse |
| Wednesday, Jan 23, 2019 - 4pm | Space and time in the brain                                          | Edvard Moser, PhD  
Nobel Prize in Medicine or Physiology  
Professor of Neuroscience,  
Kavli Institute for Systems Neuroscience, Norwegian University of Science and Technology | LBC 213- Kendall Cram | Daniel |
| Wednesday, Jan 30, 2019 - 4pm | Translating an unexpected discovery in addiction research: Development of a myosin II inhibitor for methamphetamine relapse | Courtney Miller, PhD  
Associate Professor  
Department of Molecular Medicine & Neuroscience  
Scripps Research | Jones 102 | Fadok |
| Wednesday, Feb 6 & 13   | No Seminar                                                           |                                                                        |               |       |
| Wednesday, Feb 20, 2019 - 4pm | Active Dendrites for Active Senses                                   | Pierre Apostolides, PhD  
Assistant Professor  
University of Michigan Medical School | Boggs 239 | Student |
| Wednesday, Feb 27, 2019 - 4pm | Spring Break/Mardi Gras                                              |                                                                        |               |       |
| Wednesday, March 6, 2019 - 4pm | Spring Break / Mardi Gras                                            |                                                                        |               |       |
| Wednesday, March 13, 2019 - 4pm | Synucleinopathies in Parkinson’s disease: pathogenesis, prion properties and are we studying the right disease | Jeffrey Kordower, PhD  
The Alla V. and Solomon Jesmer Professor of Neurological Sciences  
Rush Medical College | Boggs 239 | Daniel |
| Wednesday, March 20, 2019 - 4pm | The anatomy of autism                                               | Veronica Martinez-Cerdeno, PhD  
Associate Professor of Pathology and Laboratory Medicine, Institute for Pediatric Regenerative Medicine;  
Schriners Hospital; MIND Institute  
University of California - Davis, School of Medicine | Boggs 239 | Galazo |
| Wednesday, March 27, 2019 - 4pm | Gamma oscillations in the hippocampal network                        | Laura L. Colgin, PhD  
Associate Professor  
Dept. of Neuroscience; Center for Learning and Memory  
University of Texas at Austin | Boggs 239 | Schrader |
| Wednesday, April 3, 2019 - 4pm | Developmental programming of cardiometabolic diseases: role of brain leptin receptor? | Suttira “Joy” Intapad, PhD  
Assistant Professor, Dept. of Pharmacology  
Tulane University School of Medicine | SOM-5150 Downtown | TBI |
| Wednesday, April 10, 2019 - 4pm | Development of neocortical circuits: from genes to behavior          | Maria Galazo, PhD  
Assistant Professor Dept. of Cell and Molecular Biology  
Tulane University | LBC 203- Stibbs | TBI |
| Wednesday, April 17, 2019 - 4pm | GABAergic regulation of stress circuits                             | Jamie Maguire, PhD  
Kenneth and JoAnn G. Wellner Professor  
Associate Professor, Neuroscience  
Tufts University | LBC 203- Stibbs | Tasker |
| Wednesday, April 24, 2019 - 4pm | ALS: Little Progress Since I Was a Tulane Undergrad                    | Jeffrey A. Cohen, MD, FACP  
Professor and Chair, Department of Neurology  
Geisel School of Medicine at Dartmouth  
Dartmouth-Hitchcock Medical Center | Jones 102 | Daniel |

The Spring 2019 Brain Institute Seminar Series will take place on Wednesdays at 4pm on the Uptown Campus unless otherwise noted (updated 03/21/19)
